#### Description

The Lew Electric DB-1-DB DEK-BOX® series is an ETL listed, in use, waterproof assembly that is designed for all types of wood and composite decks. It comes pre wired with a 2-foot wire whip and is offered in three styles; 20A GFCI, 20A Duplex or blank. Also included is a marine grade, watertight junction box. The cover is made from a heavy-duty polycarbonate and comes in the color brown. The unit is held in place by four self-tightening wing type screws that have a lip to secure the bottom of the cover to the bottom of the deck. The DB-1-DB must be connected to a dedicated 20 AMP GFCI breaker if not using a GFCI receptacle. An outdoor rated, weather resistant (WR) receptacle must be used.

#### Compliance and Certifications

- ETL file #4004534
- Conforms to UL 514-D
- Conforms CSA C22.2#42.1
- UL listed receptacle #E362676 or #E473428
- UL listed junction box #3PK4
