### Description

The Lew Electric PB1-SP series is a single gang, drop in style plastic floor box with a metal screw plug cover. Inside the box is a 15 AMP (TR) duplex receptacle attached to a mounting plate with grounding screw and a watertight gasket surrounding the receptacle. A second gasket surrounds the underside of the cover, preventing spills from accessing the receptacles. The box that houses the receptacles is made out of a lightweight polymer construction that offers savings over traditional metal floor boxes. The box is easy to install in finished floor applications and has an interior capacity of 22.5 cubic inches. The integrated adjustable wing clamps add additional installation support. The compact floor box is affordable, easy to install, and supplies power in any finished floor.

### Color Options

- Aluminum
- Brass

### Compliance and Certifications

- ETL file #4004534
- Conforms to UL 498
- Conforms CSA C22.2 #42
- UL listed receptacle: #E309821
