Description

The Lew Electric PB2-FP series is a two gang, divided, drop in style plastic floor box with a metal four flip lid cover. Inside the box are two 15 AMP (TR) duplex receptacles, each attached to a mounting plate with grounding screw and a watertight gasket surrounding the receptacle. A second gasket surrounds the underside of the cover, preventing spills from accessing the receptacles. A Lew RRP-2-PQ quad port Comm./Data device is also included to replace one of the receptacles if warranted. This allows for line voltage and Comm./Data to be utilized in the same box. The box that houses the receptacles is made out of a lightweight polymer construction that offers savings over traditional metal floor boxes. The box is easy to install in finished floor applications and has a total interior capacity of 45 cubic inches. The integrated adjustable wing clamps add additional installation support.

Color Options

- Aluminum
- Brass

Compliance and Certifications

- ETL file #4004534
- Conforms to UL 498
- Conforms CSA C22.2 #42
- UL listed receptacle: #E309821
