Description

The Low Electric Whisper Switch Garbage Disposal Air Switch kit consists of a metal button, metal trim ring, power controller, and 11 feet of air tubing. The round button is 1.75 inches in diameter and activates the garbage disposal by sending air to the ETL listed power controller.

Simply press the button to turn the disposal on, then press again to turn it off. The Whisper Switch kit comes in seven finishes to cover a wide variety of kitchen decors and is simple to install.

The controller accepts any disposal rated up to 1 horsepower and must be used with a disposal that has a corded plug.
