

PUFP ROUND COVERS- DATA/COMM

Part numbers/UPC Codes

PUFP-BC	784149000168
PUFP-SC	784149000182

Description

The Lew Electric PUFP ROUND COVER- DATA/COMM series is a 6" round pop-up floor box cover designed to deliver safe, hidden data/comm connections in a stylish, low-profile design. This integrated cover features a 6 port data/comm receptacle that stays concealed when not in use. Simply pull the slide lever, and the top tilts open to reveal the ports— perfect for connecting low volt cords where wall outlets aren't accessible. This pop-up floor plate is scrub-water-tight when closed, making it ideal for kitchens, offices, living rooms, conference rooms, and other high-traffic areas where moisture protection is needed. This floor cover is a perfect choice for indoor residential or commercial applications in wood or concrete floors. For use in a subfloor application, the PUFP-WB wood floor box is required. For use in concrete, the PUFP-LRA leveling ring and FB round plastic floor box are required.
