Description

The Lew Electric PUFPSQ series is a pop-up floor box assembly with a 4 3/4" square metal cover and stamped steel box. It is designed to be installed where it is not possible or convenient to have a wall outlet. When in the closed position, the UL listed, tamper resistant outlet (receptacle) is hidden under the floor. When power is needed, simply pull the spring-loaded tab and the top raises up. The integrated decora style duplex outlet (receptacle) is 15 AMP (TR) and has a quick port connector terminal block attached to it for fast and easy wiring. The pop up features an IP44 water rating and is splash rated. There is also a gasket under the bezel to prevent water intrusion from underneath the cover.

Color Options

- Brass
- Dark Bronze
- Stainless
