

532-SMB-SB

Part numbers/UPC Codes

532-SMB-SB 784149212318

Description

The Lew Electric 532-SMB-SB is a round stamped steel concrete floor box with a brass tile ring. The box is fully adjustable and ships with a protective concrete cap to keep the box clean and safe during concrete pouring. The 532-SMB-SB requires one Lew four inch round cover to complete installation (sold separately). If a carpeted application is required, a sold separately carpet flange can be ordered. The SCF-1 series carpet flange adds 3/8" of height to accommodate the carpet and padding. For tile applications, no flange is needed. Simply pour the concrete to the level of the tile frameless the thickness of the tile.

Compliance and Certifications

- ETL file #4004534
- Conforms to UL Standard 514A and CSA Standard C22.2 #18
