

## 532-SMB

### Part numbers/UPC Codes

532-SMB 784149212301

### Description

The Lew Electric 532-SMB is a round stamped steel concrete floor box with a brass tile ring. The box is fully adjustable and ships with a protective concrete cap to keep the box clean and safe during concrete pouring. The 532-SMB requires one Lew four inch round cover to complete installation (sold separately). If a carpeted application is required, a sold separately carpet flange can be ordered. The SCF-1 series carpet flange adds 3/8" of height to accommodate the carpet and padding. For tile applications, no flange is needed. Simply pour the concrete to the level of the tile frameless the thickness of the tile.

### Compliance and Certifications

- ETL file #4004534
- Conforms to UL Standard 514A and CSA Standard C22.2 #18
