PUR20GD-SS	784149410448
PUR20GD-WT	784149410462

### Description

The PUR20GD series is a round Kitchen Countertop Pop-Up Assembly that features a 20 Amp GFCI duplex receptacle.

Engineered for full compliance with the 2023 National Electrical Code (NEC 406.5E), the PUR20GD series is fully approved for use in kitchen countertops and other wet locations across the United States and Canada. It includes a UL-listed tamper-resistant receptacle, ETL listing for the U.S., and cETL/CSA approvals for Canada. This outlet also meets the ANSI/UL 943 standard for ground fault circuit interrupters (GFCI), making it a reliable and code-compliant solution for countertop power needs. With an IP43 rating and successful completion of the UL 498 spill test, this pop-up outlet is built to withstand spills and kitchen messes. A built-in gasket below the trim prevents moisture from leaking into the cutout or cabinetry, making it a reliable power source in high-use, moisture-prone areas like islands, bars, and pantries. Installation requires only a single 3 ¾ inch round cut in the countertop. This unit includes a 5 foot power cord whip and features 340 degree of rotation for ease of use anywhere on the countertop.

An optional color chip sample book is available.
